

PRELIMINARY MISHAP

213th Aviation Co.
CH47C 74-22277 (B696)
Camp Humphries, Korea
21 June 1979, 2045 hours (local)

MAJOR ACCIDENT

Aircraft was being run up for an MOC (Maintenance Officers Check). At about 10 minutes into the ground run, a loud noise (bang) was reported from aft transmission area. This was followed by blade to blade contact and separation of the aft pylon. Flying debris damaged two other CH47 aircraft; extent of damage unknown. There was no report of fire.

There were no reported injuries to the three crewmen on board or any other personnel
